Many Cabinet Shifts at Ottawa Are Announced

Ottawa.—Official announcement that Major-General Sir Robert Borden, who had retired from the Unionist government and that there has been some shifting of portfolios is made. With the changes made before the departure of Sir Robert Borden for the south for a long rest, stable political conditions will be restored for some months at least, and the government will remain as it is until Sir Robert returns to the capital.

The cabinet shifts announced place Hon. Martin Burrell, who, since his retirement from the post of minister of agriculture in favor of Hon. T. A. Cress, when the Union Government was formed, has been secretary of state at the head of the customs department, which has been without a minister since Hon. Arthur L. Sifton succeeded Hon. F. B. Carroll as minister of public works.

Mr. Sifton makes another change and assumes the post of secretary of state in succession to Mr. Burrell. This shift in portfolios is a natural one, because it puts a man with legal training at the head of the department of state. In view of the practical certainty that a new Dominion Elections Act will be introduced at the approaching session of parliament, and the possibility that there may be a general election in a year, it will be better to have a lawyer presiding over the state department which has a great deal to do with the administration of election laws and other legal matters.

The acting minister of militia will be Hon. J. A. Cahan, minister of immigration and colonization, while Hon. J. D. Reid, in addition to being minister of railways, will assume responsibility for the department of public works. The announcement disposes of the report that Mr. Sifton was about to retire from the government.

It is also definitely announced that Sir George Foster, minister of trade and commerce, will be acting prime minister during the absence of Canada of the premier. He will not, however, undertake to lead the house throughout the session of parliament, and it is likely that when parliament assembles a Unionist caucus will be held to choose a home leader. The adoption of this plan will relieve Sir George from attendance in the house on many occasions, more particularly in the evenings, when matters not of great importance are under discussion. The probabilities are that the choice of home leader will fall upon Hon. C. J. Delor, who will fill this position acceptably in the past.

There are now left two cabinet vacancies to be filled, one from New Brunswick and one from Ontario. It is not expected that they will be filled until the return of Sir Robert Borden from his holiday.

Serbian Prince Killed

Berlin.—Prince Regent Alexander, of Serbia, and 26 others have been killed by an explosion in Belgrade, according to a Belgrade dispatch to the Lokal Anzeiger. The cause of the explosion is unknown, the dispatch adds. More than fifty persons were injured.

When some men meet a revolver they either tear down the street or turn down an alley.

Research Council Will Assist In Solving Problems

Ottawa.—The honorary advisory council for scientific and industrial research is taking up the problem of aid with the government air board in the matter of research to solve the problems of aerial navigation in Canada. This action has been taken in view of the growing importance of aviation in the Dominion.

The research council at its last meeting made provision for 1920 for forty bursaries, studentships and fellowships to be awarded to qualified scientists in connection with the natural resources of Canada. The council has made a grant to Professor D. W. Brown, of the University of Toronto, for the investigation of the foresting Canadian ores containing vanadium which is for making steel. A grant has also been made to in-

Germany's Army Put at 1,000,000

London.—Germany's armed forces are estimated by the British War Office to total close to a million men. These are divided into the regular army of 400,000, the land forces of the regular navy 120,000, of the armed constabulary forty to fifty thousand, the temporary volunteers or regular army reserves 150,000 to 200,000, civil guards 300,000 to 400,000.

The figures with regard to the last-named branches are rough estimates, the exact totals being unknown. Under the terms of the peace treaty, Germany is compelled to reduce her regular forces to 100,000 by March 31, and the number of conscripts must not exceed those functioning as military police in 1913.

French Plants Resuming Work

Production Recommended in About One-Half of Losted Factories.

Paris.—The French government has resumed in about one-half of the factories of Northern France where the outbreak of the war paralyzed industry, and where battles raged for four years. Out of this number, however, about 13 per cent. have been at work since the figures of the Associated Press, who is visiting the war zone under a special dispensation of the government, state that in this region 40,000 plants employing 800,000 workers were razed by gunfire, looted or badly disorganized.

Want to Get U. S. in Line

The Temps Urges Premier to Defend Decisions Until Washington Ratifies Treaty.

Paris.—The Temps, in a striking article, calls on the allied governments to defer all decisions on world questions until the United States has given its assent to the Versailles treaty and take her place by the side of the allies in tackling the great problems confronting them. The Temps says they will meet here, the world more good if they devote themselves to getting the United States into line than they go ahead and make decisions which cannot ever be enforced without the approval and concurrence of the United States.

Troops Murder Officers

Vladivostok.—A garrison of 600 government troops at Sikhoteva murdered and went over to the Russian forces. They murdered two officers who refused to join them, took four machine guns and all government ammunition and supplies.

Devonshire Going Home

London.—The Duke says there is good authority for the statement that the Duke of Devonshire will decline an invitation to extend his stay at Ottawa, private intimates rendering his return to England specially desirable.

Yellow Sugar Is Now Available

If the People of Canada Want It, They Will Have to Make Application

Ottawa.—If the people of Canada want a certain large quantity of yellow sugar which is available for sale in the Dominion, they will have to make it, according to a notice which it is understood is to be sent out by the Canadian trade commission through various channels. There is, it is said, a large quantity of yellow sugar available in Canada, but at the present time there appears to be no takers, and this sugar is not being offered from the refiners and wholesalers, in whose hands it is lying.

If the Canadian people do not want yellow sugar, it will build up an export trade, and the supplies from other countries, who are anxiously seeking it.

To Resume Soviet Negotiations

Kathonian Delegates Are Returning to Dorpat on Armistice Question

Reval.—The Estonian delegation is returning to Dorpat to resume the conference. It is reported that the Bolsheviks are willing to establish a neutral zone about the Baltic and the Baltic in Soviet territory, but that neither side shall be allowed fortifications, the effect of which would be to break up the Estonian on the Norva front. Students of the situation predict that if the negotiations are successful, an example of Estonia will be followed by other Baltic states, although French influence may have the effect of preventing this.

How Huns Shelled Rheims

Cathedral Was Bombed After Saxons Had Occupied City

Berlin.—Rheims Cathedral was damaged by German shells for the first time on September 4, 1914, when the Prussian Guard bombarded the city for two hours, even after it had been occupied an entire day by Saxons troops, according to Lieut.-Gen. Baron Von Hammer, commander of the Saxons third army, who has just published reminiscences of the first battle of the Marne.

The revelations of Baron Von Hammer are prefaced by a statement which declares that while the Germans have been searching for the guilt of those who started the war, an entire year has passed in which no attempt has been made to assume responsibility for the bombardment of the cathedral city. He expounds the theory of the military leaders who declared the firing on Rheims was justified by military necessity, in view of the fact that the French were said to have used the towers of the cathedral for observation purposes and emplacements for guns.

Held up Jeweller

Toronto Auto Bandits Made Daring Raid on Jew and Made Clean Get-Away

Toronto.—Five auto bandits held up and robbed W. J. Watson in his store on King street west, and after helping themselves to the most valuable jewelry, made a clean get-away. A shot was fired at Watson as he retired hastily to a room in the rear of the store. A policeman made chase as the bandits were leaving the building, but only succeeded in forcing the robbers to drop three small trays of jewellery valued at \$200.

Unable to Grant Passports to Russia

London.—The parliamentary committee of the trades union congress applied for passports for the delegates of the congress to visit Soviet Russia, to investigate prevailing conditions. The government refused that it could not grant passports to any country with which it had no diplomatic relations.

14,000 Shot in Three Months

Berlin.—Forty thousand persons were shot by Bolsheviks of Russia during the first three months of 1920 by order of the extraordinary committee at Moscow, according to an official statement published in the Soviet press. The committee is now on a tour of investigation of Moscow, says a dispatch received here.

Winipeg's 1919 Building Permits Winipeg—Building permits since January 1 aggregated \$2,014,000, or \$80,000 more than in 1918. It was learned from the housing inspection department. December permits totaled \$144,000.

W. N. O. 1207

Rescinding of Censorship Order

Is Included Among Those Ending With the Passing of the Old Year

Ottawa.—At midnight, December 31, all orders-in-council passed and enforced by virtue of the War Measures Act became inoperative, and hundreds of orders being numbered in those which are now no longer law. Concerning on this, a member of the cabinet stated that, contrary to the interpretations of the rescinding orders-in-council which had been published, the order-in-council relating to censorship is among those rescinded from January 1, and only nine orders relating to trade and dealing with the railways remain in effect until the end of the forthcoming session of parliament.

The only order-in-council passed under the War Measures Act which will remain are: Government control of pulp and paper, sugar, coal and wool, orders governing silver coinage and gold export, trading with the enemy or internment of aliens, and the order relating to the war passing of the censorship of the press.

Censorship being abolished with the New Year, the censor's office will be closed as soon as the business of that undertaking can be carried out.

Made Demand For For Former Emperor

Request for Extradition Was Sent to Holland During the Summer

Washington.—Through official information, heretofore available, it has been learned that last summer when an apparently reliable report of German crown prince had escaped from his island of internment at Wirerigen, the supreme council precipitately demanded the former Emperor. The demand was turned over to the cabinet powers. The demand was embodied in a note sent to the Dutch government.

The reply of the Dutch government was a polite statement that the report of the escape of the crown prince was erroneous and that every precaution was being taken to prevent such an issue. The information available in this case was no attempt by the Dutch to answer the demand otherwise, so that the probable action of the Hague authorities in case such a demand is put can only be inferred.

Ratification of Peace

Germany to Sign Protocol, and Allies Will Hand Letter Agreeing to Reduce Their Demands

Paris.—Exchange of ratifications of the treaty of Versailles takes place this week at the Quai d'Orsay. Baron Von Lersner, head of the German delegation, and Paul Dato, secretary of the peace conference, settled all points in connection with the signature, except that relating to naval force, observation purposes and emplacements for guns.

The Germans will sign the protocol, and at the same time the allies will sign a letter to them agreeing to return part of the total available, which it has been over-estimated. Germany is gravely unassured economically. In any case, after the signature, the allies will get 242,000 tons of material and the balance based upon the report of experts, who are now checking up at Danzig, Hamburg and Bremen. The British Premier, Lloyd George, will be present at the ceremony, which will be carried on without any display. Diplomatic relations with Germany will be resumed the following day, when the French Charge d'Affaires will go to Berlin and French consuls will resume their posts.

Allied troops will proceed on January 12 to the territories which must be evacuated by the Germans or where policies are to be held. It is estimated that 100 trains will be needed for this purpose.

Precautions to Defend Gen. French

Dublin.—Harbored war emplacements are being constructed around the vice-regal lodge and also outside the town clerk's office in the fort which overlooks the chief secretary's office in the castle. It is assumed that the latter barricade is being erected to prevent the possibility of an attack upon the castle from the city hall.

German Battle Losses

Berlin.—Official statistics made public place the number of German killed in battle at 1,000,000. These figures do not include those who died in an attack upon the castle from the city hall.

London—The Prince of Wales

starts his journey to New Zealand and Australia and India on March 1. He will be away until Christmas.

U. S. Will Deal Firmly With Radicalism

Electricity To Supercede Steam

All Railway Terminals to Be Electrified in Very Short Time

London, Ont.—D. H. Hanna, general manager of the Canadian National Railways, made the statement that within a short time the terminals of all railways in Canada will be electrified owing to the advantages of electricity over steam in the handling of trains and cars in yards. Mr. Hanna advocated an advance in freight rates, because such rates in Canada are the cheapest in Christendom or any other country.

He said it might be a year before the Grand Trunk Railway comes into the hands of the government, owing to the prolongation of the negotiations.

Will Soon Retire

President Wilson Will Not Seek a Third Term Now

New York.—The Evening Sun publishes the following from its Washington correspondent: "President Wilson will formally announce in a message to the Senate the Jackson Day dinner, to be held here January 8, that he will not be a candidate for a third term in the White House."

This statement was printed here in the Washington Post, and was confirmed later by a high administration official. The President will write a letter to the guests announcing his intention not to continue in political life after March 4, 1921.

Taking Census in United States

Washington.—An army of 85,000 enumerators will begin the work of counting the men, women and children of the United States and of collecting certain information about resources of the country. The census is expected to show a population of 107,000,000 to 112,000,000, as compared with 93,000,000 in 1910. The estimated population on July 1, 1919, was 106,671,294.

Gov. Ligor Store for Manitoba

Winnipeg.—Establishment of a liquor depot in Manitoba, either by the government or under government supervision, was presented by Hon. R. S. Thomson, after a consultation by the provincial government with members of the Manitoba Social Service Council. He is not only possible, but probable this idea shall be adopted, the minister of education declared.

Ministry Reported Assassinated

London.—A report is in circulation in Stockholm that Lenin Trotsky was assassinated recently when Bolshevik forces murdered in protest against the shortage of food and the hardening of the winter campaign. Trotsky, it is reported, is in command of the Red regiment which murdered and on its officers.

Absence of dough it apt to make bakers crazy

Japan Ready to Fight Bolshevism With Allied Aid

Viscount Grey Leaves U. S. For Liverpool

Completes Three Months of Service as British Ambassador at Washington

Washington.—Completing three months of service in Washington as British ambassador to the United States, Viscount Edward Grey left New York, from which port he sails on the Aquitania for Liverpool.

While no official announcement has been made either here or in London, it is expected that after Viscount Grey has reported on the work yet to be done by the British representative here, a successor will be promptly named. The arrival here of an accredited ambassador, Ronald C. Lindsay, counselor, will be in charge of the embassy.

When a man falls he begins to believe in luck.

Washington—Any movement, however cloak and dagger, is being

to undermine the government will be met with unflinching, persistent, aggressive warfare, Attorney-General Palmer announced, in stating the policy of the department of justice for the forthcoming year in regard to radicalism.

The attorney-general added that no quarter would be shown to those who are of others of their kind, whom he described as "chiefly criminals, mistaken idealists, social bigots and unfortunates suffering from various forms of hypersthenia."

British Troops Quelling Trouble in India

Severe Losses Inflicted on Tribesmen Although Troops Suffered Little

Hard Pressed London.—Dispatches received here from British India show that there has been considerable fighting between British expeditionary forces and the revolting tribesmen. Severe losses were inflicted on the tribesmen, who captured the hills westward of Jamnala, captured the Sakra ridge, bringing the tribesmen from their positions, upon which the British later pitched their camp. Airplanes followed the enemy, harassing them and causing a number of casualties.

A further dispatch shows that the tribesmen counter-attacked and the British were compelled to retire owing to heavy casualties from Sand Bag hill, which they had taken after a stubborn resistance, lasting several hours.

Sand Bag hill, and the adjacent ridge, form a strategic position essential to the safety of the British columns in their further progress. The battle continued throughout the twentieth, with the British having captured several objectives. The enemy casualties are reported to have been heavy.

Teachers Organize

Winnipeg.—The Manitoba Teachers' Federation concluded its annual meeting by approving of the movement to organize an association of teachers' federation, embracing the four western provinces, declaring that \$1,200 would be the minimum wage for holders of permanent second-class certificates, and the efficiency of the teacher, the importance of the work and the remuneration offered in other lines of work.

Hungary Wins Territory Returned

Vienna.—The Hungarian government will make a fight when its peace delegation is asked to cede territory of some of the territory taken away from it. Count Apponyi, who heads the delegation, indicated that line of procedure.

Japan Ready to Fight Bolshevism With Allied Aid

London.—It was learned from Japanese sources in London that no decision has yet been reached between the United States and Japan regarding the future policy to be carried out in Siberia consequent upon Admiral Kichka's retreat. The views of the Japanese government, it was ascertained, have been fully communicated to the Washington government, and the British government has been notified that negotiations have begun.

Japan, it was said, was determined to arrest the blows of Bolshevism in the Far East, and must, therefore, review the whole situation in Siberia. She is prepared, it is necessary, to increase her force in Siberia, but will not enter in co-operation with her allies.

It was also said that all arrangements had been concluded between the British, French and Japanese governments for the repatriation of the Czech-Slovak troops concentrated near Vladivostok.

Bow Island North

From our own Correspondent

Mr. Bob McGregor, foreman of the "Bungalow Farm" visited town last week.

A Merry Xmas party was celebrated at the farm of Mr. W. J. Little of Good Cheer, among the happy guests were Messrs. York, Nogieski and Thos. Spay.

John Nepelick left this District for R.C. last Monday, expecting to return later on, in time for the spring drive.

Daerl Smith, manager of the Johnston farm has been considerably under the weather this last week owing to facial trouble, arising from neuritis.

Local horsemen will be glad to hear that heavy weight teams are in great demand than ever in Calgary following those successive drought seasons the bottom of the horse market fell out owing to the winter exodus into the newer Peace River country farm horses are in big demand, and values are rising every day so hang on, your chance to turn off a few head may materialize at an early date if the demand keeps firm.

The tracks of a large bob-wolf were seen in this district a few weeks ago, and were defined by several of the ranchmen living in the neighbourhood of the river, we hear of one being caught in a trap upon Denary Lake, we hope that our big grey visitor, was the one secured, being very destructive to stock in general.

Mr. William Hamblen the horse-rancher of Bow River was a business visitor here recently.

W. Bruce Menden spent Christmas at the home of Mr. and Mrs. Chas. Thompson of Bow Island North.

Art Whitney spent New Year's day with W. H. Perry.

New Year passed off quietly Mr. Sandy gave a show at the Majestic on Dec. 24th, there was a very large attendance.

Mr. Harris was a business visitor to Burdett last Friday.

FERTILE PLAINS

The Annual Meeting of the U.F.W.A. was held 10th December. The following officers were elected.

President Mrs. Anna Conquer-good

Vice Pres. Mrs. Gertrude Smale
Sec. Treas. Mrs. Martha Henry
On New Year's Eve the ladies were hostesses at a Watch Party a program, consisting of vocal solos, duets and quartets were rendered this was followed by a paper on "Why Women should Join the U.F.W.A." by Mrs. Conquer-good.
A short play entitled "A Little Mistake" was then put on. After this a social time was spent and lunch served. Happy New Year greetings were exchanged and singing of "God Save the King" brought to a close a very pleasant evening.

A Christmas tree was held in the Schoolhouse for all the school children, they had Recitations, singing and Dialogues there was a large attendance of grown up people, good music being supplied from Taber; after the entertainment there was a dance, and it is reported that over 200 people were present, after the dance a splendid luncheon was served.

To whom it may Concern

Concerning the collection taken up by Glen West for Mrs. Hans Hole last June 1919. This is to certify—Glen West was over to my place and checked up the book which shows \$281.00 he collected \$241.00 the rest was turned in at the bank or left with Mrs. Hole all but \$5.25 which he used for expenses.

This is to clear Glen West of keeping out any money.

Signed

Julius Austin

British Sea-Going Spirit Undaunted

At a meeting in London, England, of the P. & O. Steamship Company, Lord Inchcape recalled the fact that about 7,000,000 tons of British shipping were sunk by the enemy in the war out of a pre-war total of 21,000,000 tons.

"But this," he said, "has not affected the determination of British shipowners to maintain their position, nor has it broken the sea-going spirit of the British race. Given fair play and freedom from Government interference and control the British merchant marine will come out on top again."

Minard's Liniment Co., Limited, Gentlemen—Theodore Dorais, a contractor of mine, was completely cured of rheumatism after five years of suffering by the judicious use of MINARD'S LINIMENT. The above facts can be verified by writing to him, to the Toronto Post or any of his neighbors.

A. C. C. V. Merchant, St. John's, Que., Dec. 12, 1918.

Music Teacher: You should pause there. Don't you see that it's marked "Pizzicato"?

Little One: Yes, teacher, but I aren't tired.

CUTICURA HEALS PIMPLES

In terrible rash on face which made skin sore and inflamed. Irritated face by scratching and was disfigured. Could not sleep well and made food unpleasant. Trouble lasted 3 months before used Cuticura and after using 2 cakes of Soap and 1 box of Ointment was completely healed.

From signed statement of Miss Gladys Macleod, R.R. 3, Burnside, Ont. Cuticura Soap, Ointment and Tablets cure pimples and maintain skin purity, skin comfort and skin health when used all else fails.

For free sample send to Cuticura, Inc., Dept. A, Boston, U.S.A. Send no money.

Growth of One of The Western Provinces

Remarkable Expansion of Province of Saskatchewan Shown by the Official Report

The expansion of the province of Saskatchewan is illustrated in the annual report of the Department of Municipal Affairs just published, which shows that the number of rural municipalities has increased from two to three hundred since 1905. During the same period the villages have increased from 63 to 317; towns from 16 to 75; cities from 3 to 7, and school districts from 896 to 4148.

Further growth is predicted by the Hon. Geo. Langley, minister of municipal affairs, who states "the development in municipal work and municipal responsibility is the logical result of the rapid growth and expansion of the province, and must continue so long as our population increases and new problems arise."

U.S. Plans Big Navy

Recommendations Are Made to Build Many Ships Next Year

Recommendations of the U.S. navy general board for the building program for 1921 includes two battle ships, 1 battle cruiser, 10 scout cruisers, 5 destroyer flotilla leaders, and 6 submarines.

"The navy of the United States should ultimately be equal to the most powerful maintained by any other nation of the world not later than 1925," the report adds.

In its recommendations the general board urged a policy of naval expansion that will guarantee protection of coal lines, and the rapidly expanding merchant marine against any naval power in the world. Such protection the board declared, can be had only by increasing United States sea power to a point where it is "second to none" and maintaining it at that level.

For developments and construction of aircraft during the year the board recommended an appropriation of \$27,000,000, with \$6,000,000 to be used for experimental construction.

Most women are born leaders and most men are born followers therefore.

Threshing Outfits In Great Demand

More Threshing Machines in Field Than Ever Before

In spite of the fact that portions of the province of Alberta were shorter than usual in the matter of crops last season, there appears to have been more threshing machines in the field than ever before. This is borne out by the licenses obtained at the provincial government's office, where over 2,800 licenses have been taken out to date, and this number is expected to reach well over 3,000 before the end of the year. Last year the total number of licenses obtained by threshers was 2,800.

The heavy shipment of threshing rigs into the districts north of Edmonton, Alberta, accounted for the increase in the year's fleet of outfitting rigs. For weeks during the late summer and early fall every train in the northland carried from one to a dozen threshing machines, while others were rigs taken north from the dryer belt farther south.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—Look for the name California on the package, you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Listening to Fish Stories

Norwegian fishermen are using a species of submarine telephone to aid them in their work. A microphone is lowered from a fishing boat and connected by a wire to a telephone in the boat. The fisherman listens at the instrument and when the fish told a meeting the listening device records the disturbance. — Scientific American.

Many an unwell young man means to pass a civil service examination.

Minard's Liniment Cures Colds, Etc.

Speed Regulations in Japan

Here's a new method of traffic speed regulation.

In Japan, according to reports from the Oriental Empire is becoming one of moment and steps have been taken to meet the demand for traffic control.

But they have an entirely new way of handling the situation.

On roads between 12 and 18 feet wide, machines may run eight miles an hour; between 18 and 36 feet, 12 miles an hour; above 36 feet, at 16 miles an hour.

State of Ohio, City of Toledo, Lucas County, vs. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business at the City of Toledo, Ohio, and that he is the owner of one of the machines used in the test of the machine.

Subscribed and sworn to before me this 6th day of December, A.D. 1918.

Notary Public.

Witness my hand and seal this 6th day of December, A.D. 1918.

F. J. Cheney & Co., Toledo, Ohio.

Cheney While He Flies

A new type of painting is being introduced in the galleries in England now by a member of the Royal Air Force. The paintings are by Capt. A. E. Cooper, made while flying in a lighter-than-air machine over various picturesque spots in England. Many pictures of flying subjects have been painted on the ground. But Captain Cooper takes his palette and brush into the air. He has been astonishingly successful in his work, as the pictures attest. "Edinburgh Castle From the Air" is described by critics as "quite wonderful." His "Aberdeen from R-29" is another one called an exceptional painting.

Great Britain's Need of Oil

The importance to the empire of the oil-bearing strata in the German colonies taken over under mandate of the League of Nations by Australia was emphasized by Sir Joseph Cook, the minister in charge of the Australian Navy who pointed out in the House of Representatives that while the British Empire depended on ocean-going commerce, it possessed only two per cent. of the world's oil. He hoped that they would be able to solve the serious problem thus stated, otherwise such could not be attained in the international competition of the future.

Nothing to Equal

BABY'S OWN TABLETS

Mrs. Alfred Naud, Natagan River, Que., writes: "I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else. What Mrs. Naud says thousands of other mothers say. They have found by trial that the Tablets are just what is claimed for them. The Tablets are a mild but thorough laxative, which regulate the bowels and sweeten the stomach, and thus banish indigestion, constipation, colic, croup, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Time flies so quickly after a man celebrates the thirtieth anniversary of his earthly career that he imagines there is quicksand in the hour glass.

A Quinine That Does Not Affect The Head

Because of its tonic and laxative effect, LAXATIVE BROMO QUININE (Tablets) can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine."—L.W. GROVES' signature on the box. 30c.

A Happy Family

BY DR. C. C. ROBERTS

A happy family is one that can sit down to the table with keen appetites and good cheer. Plenty of the out-of-doors and cleanliness, inside and outside of the body, will make for health, wealth and happiness. Your doctor will tell you that anything from a headache to the most serious illness may result from allowing food to ferment in the intestines. The first thing to do in case you feel mean, lousy, dull, perhaps feverish, is to flush the liver and kidneys, drink plenty of water, and take a dose of castor oil, or something better, made of May-apple, aloin and jalap, and long sold by almost every druggist as Dr. Pierce's Pleasant Pellets. This may save you from a fit of sickness, remove the poisons from the system and give the tissues of the body a chance to build up and resist disease.

People are realizing more and more that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Uric acids back up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs I would advise any one to get Anuric (anti-uric) which is to be had nowadays for fifty cents, at almost any drug store.

Chinese Are Skilful Candy-Makers

The Chinese are very skilful in making confectionery. They are able to convey an orange of its pulp exactly and then fill it up with fruit jelly without one being able to find the mistake even in the shell, or even a tiny hole. Indeed, they even embed an egg in this manner and fill it with a sort of almond nugget without one being able to find the slightest break or incision in the shell.

She Thought Dress Would Look Dye

But "Diamond Dye" Turned Her Faded, Old, Shabby Apparel Into New

Don't worry about perfect results. Use "Diamond Dye" guaranteed to give a new, rich, lustrous color to any fabric, whether it be wool, silk, linen, cotton or mixed goods. Dresses, blouses, stockings, shirts, children's coats, feedings, draperies, coverings—everything.

The Direction Book with each package tells how to diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

Vacationist— "Do you have many weeks here?" Old Timer—"Well, I dunno. You're the first I've seen this season."

BURDETT

From our own correspondent

Rev. Mr. Powell preached last Sunday evening in the Methodist Church and the Church was filled.

We hear there will be an Election for Councilors for Burdett in the Council Chamber next Monday.

The women of Chicago have formed an Association to reduce the "High Cost of Living," already they have 70,000 members and numbers are joining daily; their Slogan for last week was as follows:-

"I went to market to buy a fat pig."

Home again home again, Prices too high. Well those ladies would never have had any need to have that Slogan if only they had been buying their Meat Supplies from George Lomas of Burdett, your trust friend, because he sells the Best of Meats at the Lowest Prices, and so reduces the "High Cost of Living" o you, dear reader.

**LANTERN SLIDE
PICTURES,
WITH LECTURE.**

To be given by the Rev. A. D. Richards of Medicine Hat the subject and pictures being: (his trip with the Boy Scouts in the Rockies) This Lecture will be held in the Methodist Church at Burdett. On Saturday Jan 10th, at eight o'clock.

Admission Adults 25c.

Children 15c.

An Entertainment was held at the L. S. D. Church in honor of Mr. Ashton who is leaving shortly on a Mission Tour to the Eastern States.

Mr. and Mrs. F. Hamilton gave a reception last week in honor of Mr. Ashton, quite a large crowd gathered together to bid him good bye and God Speed.

Mr. and Mrs. Rygg entertained their friends and relatives at dinner two o'clock on Christmas Day.

A herd of 16 Antelopes crossed over on the ice into W. Perry's Ranch last week.

Mr. Hamilton has a new assistant at the Post Office.

Rev. Cook Pastor of Burdett Methodist Church went away last week for a visit to the Coast; the pulpit will be filled during his absence by various Supplies among them being the Rev. Powell, Rev. A. D. Richards, Rev. Theo. Danielson and others.

The 1919-20 Dance held here last week will long remain in the memory of the people for never in the history of the town has the death of the old year and the birth of the new year been so appropriately celebrated. For some time past the dances have been allowed to run at random and consequently the morale of the crowd has suffered greatly, but fortunately some of our older citizens have awakened to the danger of social degradation and as a result a reformation is taking place. This was the striking feature of our last dance and as the reformers have barely started, it will be more noticeable as time goes on. Those who were present last Wednesday night cannot help but realize what a great improvement this will be to our future dances and should not fail to show their appreciation. With the noisy Jazz element, & Fox Trot abolished and Waltzes, Minuettes and Quadrilles substituted the dance hall can be converted into a veritable paradise where middle aged respectable people can indulge in the recreation hitherto enjoyed solely by the younger, more thoughtless set. Doubtless there will be a few very few, we hope who will protest against this change for the better but we beg of them to understand that this change is being brought about for their own good by those whose spotless characters make them quite capable of carrying on moral reform.
